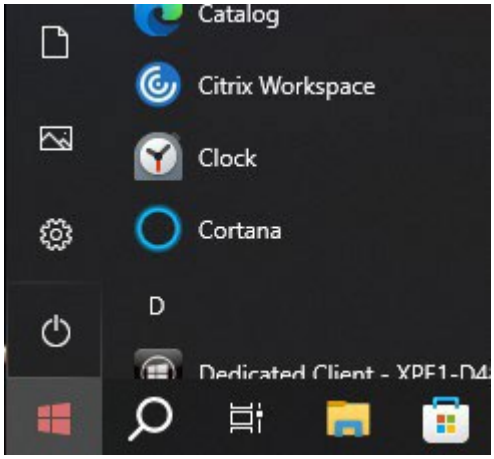
Instruction for configuring Citrix Workspace App

Citrix Workspace is a core application so there is no need to request for application, or to manually initiate the installation.

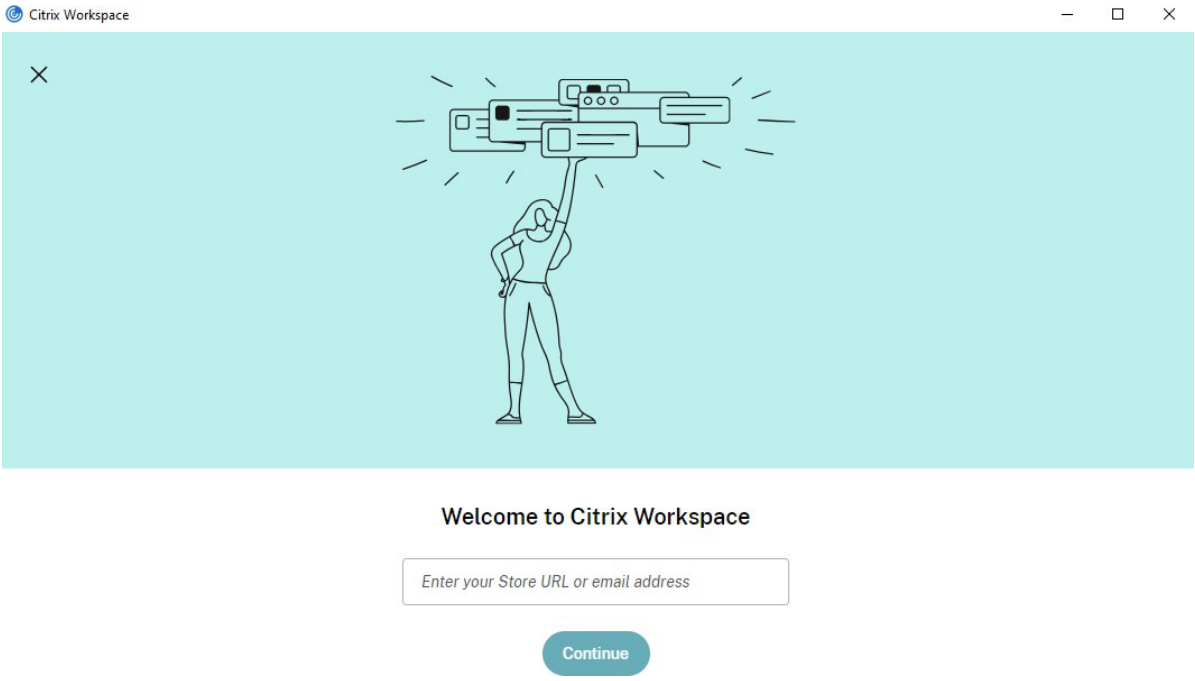
1. **Step 1**

Application will be available in AMC Start menu. Use this application shortcut to launch application.



2. **Step 2**

On Initial usage the application will open to a window like this, user needs to manually enter the storefront URL to configure application.



Storefront URLs for different regions are listed below. Users can copy the required URL and use in step2.

While connecting from external network, always use MFA URL.

MFA URLs

EU - https://avc-eu-mfa.allianz.com

NA - https://avc-na-mfa.allianz.com

APAC - https://avc-ap-mfa.allianz.com

IN - https://avcindia-eu-mfa.allianz.com

Internal URLs

EU – https://avc-portal.srv.allianz

NA – https://avc-portal-na1.srv.allianz

https://avc-portal-na2.srv.allianz

APAC - https://avc-portal-ap1.srv.allianz

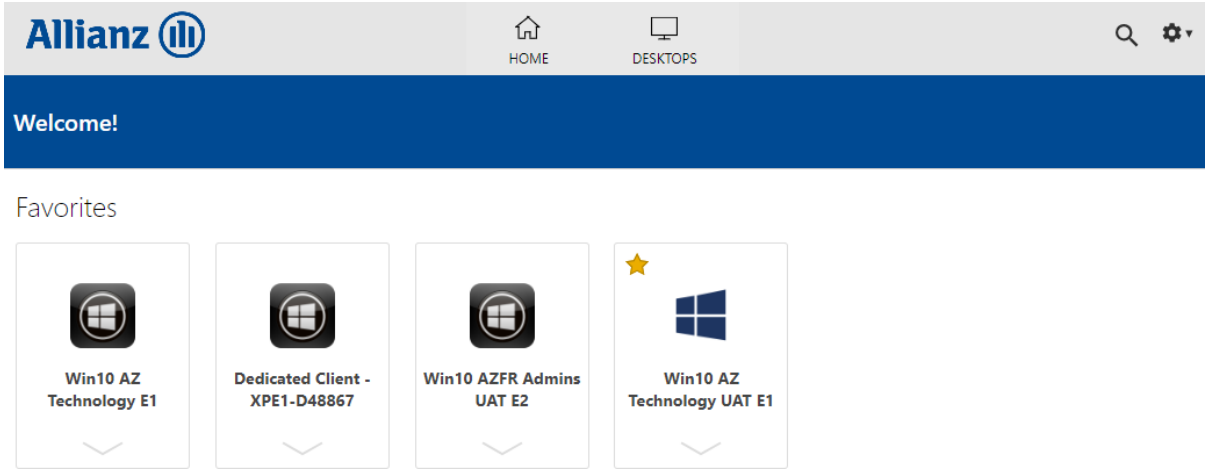
https://avc-portal-ap2.srv.allianz

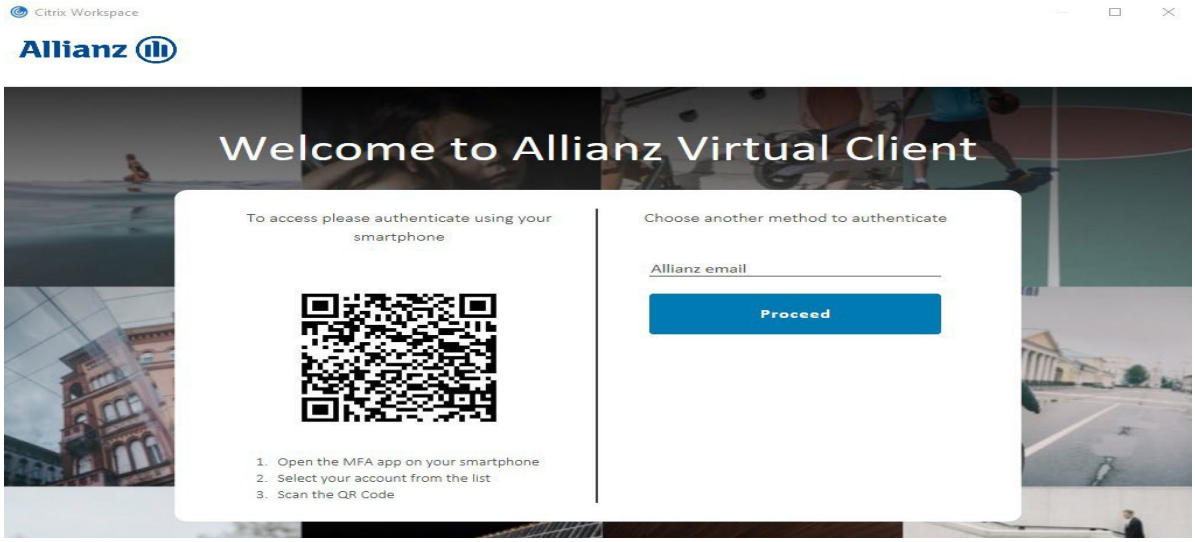
Cloud AVC

https://allianz.cloud.com

3. **Step 3**

Once the correct storefront URL is configured, AVC resources will be listed like below image.



4. Step 4


Users can authenticate using Veridium application when MFA authenticator prompt appears.
